

Meet Nancy!

Habitat for Humanity of Montgomery County (Habitat MCTX) is thrilled to welcome Nancy to her new home in Cedar Creek! Nancy is from Cuba and moved to the United States to be with her daughter and son and hoping for a better life. Even though her son lives in Florida and her daughter lives in Odessa, Texas, she's looking forward to having them visit soon!

Despite working in landscaping and dealing with physical pain from a past injury, Nancy finds joy in being outdoors. Currently residing in a second-floor, one-bedroom apartment, she faces life's challenges with determination, especially those related to her knee mobility.

Reflecting on her experience, Nancy says, "I've had a beautiful and educational journey! The support from Habitat MCTX families, the Red Hats, and everyone I've worked with has been very helpful." She expresses gratitude for the dedicated volunteers who provided guidance and friendship.

Opening the door to her future home will be a triumph for Nancy. Recounting her journey, she shares, "I've worked since I was 18, and life has been rough. Becoming a homeowner at 64 is special. Thanks to Habitat MCTX, I'll have a stable and safe home."

Fortunate and grateful, Nancy looks forward to retirement, envisioning simple pleasures like reading, listening to music, and cooking in her own space. Her dreams extend beyond homeownership, including a commitment to continuing her work, achieving US citizenship, and embracing a future filled with opportunities.
