

## Meet Chelsea!

Habitat for Humanity of Montgomery County (Habitat MCTX) joyfully welcomes Chelsea and her family to their new home in Cedar Creek. The cramped apartment, plagued by issues like mold, no longer suits their growing family of five. Currently residing with a close friend, the lack of space leaves the family feeling constrained and unable to live as they wish. Chelsea is determined to provide her children with the space and comfort they deserve.

With the support of volunteers, Chelsea witnessed the transformation from a pile of wood into a home for her family, filling her with anticipation and excitement. Chelsea's unexpected yet heartfelt choice for her favorite room is the laundry room. The absence of such a space in their apartment has made washing clothes difficult, especially for a family of five. Chelsea eagerly anticipates the simple pleasure of having a dedicated laundry room in their new home.

Chelsea envisions a bright future for her family. The challenges faced during the Habitat for Humanity process will be valuable lessons for her children. Chelsea hopes the journey, struggles, and triumphant outcome will instill in them the belief that anything is possible. Above all, the new home promises stability—a long-awaited haven in a safe community.

Chelsea hopes this change will lessen the stress her children have shouldered for too long. Moving to their new community, she sees opportunities for her kids to form lasting friendships and create a space where they can truly be happy. In the walls of their Habitat MCTX - built home, Chelsea expect to find shelter and the promise of a brighter, more hopeful tomorrow for her family—all because she took the initiative to forge a better path for them.
